Save the date for a special conversation with Nick Kristof, the two-time Pulitzer Prize winning *New York Times* columnist, activist and best-selling author.

Nick Kristof is known for human rights advocacy and his efforts to give voice to the voiceless—especially women and girls. His newest book, *A Path Appears*, co-authored with Sheryl Wu Dunn, is an accounting from the front lines of social change. The book relates how individuals are, in fact, changing the world—both in our own yards and across the globe—and explores ways we can be part of that change.

Join us for this unique experience, hearing directly from Nick about his most recent findings and why the work of organizations like Girls Education Collaborative is so critical to solving issues of poverty, dignity and security.
